SEND TEXT MESSAGES DURING YOUR EVENT

On-site event updates by email and text messaging is live! Keep everyone up-to-date by easily sending messages to participants, volunteers, and committee members when something happens.

Get people to the line on time and cut down on the "what's happening?" and "when do I run?" confusion by letting them know who is running now, where they are, who is running next, and more.

Any volunteer can report status changes (e.g., someone is starting their run, a brace is in the bird field) and send text messages to anyone involved in the activity without having to know phone numbers or email addresses.

STAKES & LEVELS SETUP IMPROVEMENTS

The stake/level area in the Setup Assistant adds several new fields specific to the level.

- the number of dogs per run
- if dogs are judged against a standard or competing against each other
- special dog info required to enter the stake (e.g., DNA #)
- run duration
- and more

7 Miscellaneous

Number of dogs running together

How many dogs at a time?

Are dogs judged against a standard?

Check this box if each dog is judged against a standard (e.g., hunt test, obedience, rally).

Are dogs competing against each other?

Check this box if dogs are competing for placements or prizes (e.g., field trial, obedience, rally).

OTHER IMPROVEMENTS

Judges' initials section at the bottom of PDF catalog pages is now an option. Previously, they were always shown.

Event admins can now "partner" 2 or more events together. Entrants will see the related event when they get to their cart and can enter a dog in it by clicking a link.

The section showing "related activities you might like" in the shopping cart has been redesigned to make it easier to see and understand.

It's now easier for people to find their entries and see the open and close dates/times of an event on the event page.

The document uploader (Premium Lists, Flyers, Waivers, Participation Agreements, etc.) has been revamped and will automatically convert Word documents to PDF.

Portuguese Water Dog Catalogs and Running Orders have been improved.
