WHERE SIMPLICITY MEETS INNOVATION

Instantly bridge the gap between your customers and your business information with our ai chatbot!

Intro

Large websites often overwhelm users with vast amounts of information, requiring extensive scrolling, searching, and digging to locate even basic information. What if there was a solution that could be set up and integrated into your website within minutes, permanently resolving this issue?

symplistic.ai offers an efficient, user-friendly tool designed to **simplify** access to information, ensuring that visitors can find what they need quickly and effortlessly. The most **symplistic** way to look at it is symplistic.ai creates a search engine for your website, in minutes.

About

symplistic.ai was founded with a clear vision: to bring streamlined, AI-powered solutions to businesses of all sizes at an affordable cost.

Enhance your website's accessibility and customer satisfaction with symplistic.ai. Think about how long it takes customers/users to locate essential information such as interest rates, bylaws, or even basic info like holiday hours on your site?

symplistic.ai revolutionizes the user experience by providing immediate, easy access to such data, transforming how customers interact with your digital presence. Implementing our AI-powered solution not only boosts efficiency but also significantly improves service quality, ensuring your business stands out in a crowded digital landscape.

symplistic.ai

Reduce Costs

symplistic.ai allows you to reduce the need for call ins / enquiries. For example, our chatbot is able to pull any information available on your website, or as a part of your knowledge base in seconds. This eliminates the need for call centers or customer service reps to answer questions.

5 minute setup

Setting up is quick and straightforward —just a matter of minutes. Enter your website URL, and we'll provide you with two lines of unique code. Simply embed these into your website, and you're all set to go!

Main Features

Use your website

Your website is the main source. Our advanced AI & (in house) Data Science algorithms allow us to use your website as your main knowledge source. No setup required.

Link to information

All of the responses from our chatbot include a link users can click to where the information is on the website, drastically reducing time it takes to get there.

Knowledge Base

symplistic.ai allows you to upload documents like PDF's to allow our chatbot to use in addition to your website. All these knowledge sources are a part of your knowledge base.

24/7 availability

Your users can have their questions answered any time of the day. Imagine a scenario where someone needs to understand city bylaws or a bank customer wants to know about interest rates and mortgage options. With our service, there's no need to wait for business hours. Provide instant, accurate answers to their inquiries around the clock, effortlessly!

Setup Wizard & Assisted Integration

Our setup wizard guides you or your developers through an effortless setup process. Additionally, one of our team members is always available to assist with the integration, ensuring a smooth experience.

**Let's change the way people
interact with your website.
