Cairo, 13 May 2025

OFFICIAL STATEMENT ON LEAD (Pb) ABSENCE IN CALCIUM CARBONATE

To Whom It May Concern,

We hereby **ACMA for Chemicals and Mining** formally confirm that our product, **Calcium Carbonate**, has been tested for the presence of Lead (Pb) in accordance with recognized international analytical standards.

Based on the results of these tests:

Lead (Pb) is not detected as defined by applicable regulatory bodies such as the U.S. FDA, EU REACH, and other relevant standards.

We ensure that our calcium carbonate is manufactured under strict quality control measures, using high-purity raw materials, and complies with all applicable safety and environmental regulations.

Should you require a detailed Certificate of Analysis (COA) or additional testing documentation, we will be pleased to provide it upon request.
