

All Season Dining Solutions

Exterior dining spaces allow for increased capacity while still adhering to social distancing recommendations. Ranco's structures provide guests a comfortable space to enjoy safe from the elements. A single structure can be modified to provide year round solutions.

Sidewall Options

Sidewall can easily be changed according to your needs and current climate conditions.

- Canopy Only
- White, Clear or Window Vinyl
- Glass or Hard Wall Panels

All walls are compatible with Ranco's locking door system.

Climate Controlled

Structures can easily integrate with climate control solutions.

- Fans
- HVAC (Vertical or Ducted Units)
- Heat

All Weather

Arena designed the 26° pitch structures specifically for snowy climates. The increased pitch allows the roof to shed snow much better than standard tents, making them perfect for semi-permanent installations during winter months.
