

SOCIAL DISTANCED DINING 30'x50' Tent Structure

With interior restaurant space being limited by the anticipated social distancing requirements, take the fun outside by adding a custom, customer friendly clearspan structure by Ranco Response.

By doing so, you provide a larger footprint for your customers to feel safe, while at the same time increasing the amount of guests you are able to serve.

Consider working with your food and beverage vendors to provide sponsorship opportunities and offset the cost related to providing a larger footprint.
