

Plenti Diversity & Inclusion Statement

Our purpose at Plenti is to bring everyone's big ideas to life – and that means EVERYONE.

We are committed to making sure diversity and inclusion is always part of how we do things around here – whether you're a member of our team or one of our customers.

We believe being invited to the party isn't enough: you should also be asked to dance!

We understand everyone is unique and we recognise and value everyone's individual differences. We also want people to know they are all valued and respected, have access to the same opportunities and resources and can contribute to our shared success.

We do this by upholding our values and embedding diversity and inclusion in all aspects of how we treat our employees and our customers.

We hold ourselves accountable to this so we can advance our diversity and inclusion priorities, making sure they always reflect those of our Plenti community.
