Birthing Mother: New Child Leave in CA Partial Wage Replacement

Two Primary Wage Replacement Laws

- 2 California Paid Family Leave (PFL)

Disability

- Generally pays up to 4 weeks prior to delivery, but will begin as soon as the birthing mother is certified as disabled.
- 2022 maximum benefit amount is capped at \$1,540 based on a taxable wage limit of \$145,600

Baby Bonding

PFL paid at same rate as SDI for up to 8 weeks of baby bonding (typically 60% or 70% depending on income up to wage limit \$145,600). No waiting period in transition from SDI to PFL.

Most Common Result

- Total Standard Delivery Partial Wage Replacement - **Up to 4 1/2 months of SDI and PFL (2½ months SDI, 2 months PFL)**
- Total C-Section Delivery Partial Wage Replacement - **Up to 5 months of SDI and PFL (3 months SDI, 2 months PFL)**

Paternity and Non-Birthing Maternity

FMLA and CFRA Job Protection

Paid Family Leave (PFL) Partial Wage Replacement

Provides 60% of employee’s earnings (or 70% depending on income) calculated over a 12- month base period (roughly 5 to 18 months before the PFL claim begins) for up to eight weeks of new child bonding.

- 2022 maximum benefit amount is capped at \$1,540 based on a taxable wage limit of \$145,600

Most Common Result

- **Paternity Leave Job Protection:** New fathers can take protected bonding leave for up to 12 weeks (3 months)
- **Non-Birthing Maternity Leave (Adoption, Foster Care, Surrogacy):** Same as paternity leave (because no pregnancy disability)
- **Partial Wage Replacement:** Non-birthing parents of a new child are eligible for up to 8 weeks for new child bonding (two thirds of the period in which they enjoy job protection)

SF PPLO Note

If the employee works in San Francisco and meets the requirements under PPL, the employee will receive up to 100% of his or her salary while on PFL capped at \$2,567 per week in 2022 (60% from PFL and 40% from the employer).

CFRA Coordination with FMLA

- Leave taken by an employee under CFRA runs *concurrently* with FMLA, except where leave is taken under FMLA for disability due to pregnancy, childbirth or related medical conditions. **Leave for pregnancy or pregnancy-related disability counts only toward the employee's FMLA leave entitlement (as well as toward PDL, as discussed below) and not toward the leave rights granted under CFRA.** This is because CFRA specifically excludes leave taken for disability due to pregnancy, childbirth, or related medical conditions as a serious health condition of the employee. As a result, an employee who exhausts FMLA (and PDL) for a pregnancy-related disability is still entitled to leave under CFRA in order to bond with the newborn child.

PDL Coordination with FMLA and CFRA

- The FMLA treats any period of incapacity due to pregnancy or for prenatal care as a serious health condition which entitles the employee to leave. As a result, **leave taken for pregnancy-related disability will count toward both the employee's FMLA and PDL entitlements** (so the leave periods will run *concurrently*).
- However, because CFRA does not include leave taken for disability due to pregnancy, childbirth or related medical conditions as a serious health condition of the employee, **PDL does not run concurrently with leave under CFRA.** As a result, an eligible employee who is certified to take the full 17 1/3 weeks of PDL (concurrently with the 12 weeks of FMLA) and then 12 weeks of CFRA for baby bonding, will have a combined total of 7 months of leave.

San Francisco Paid Parental Leave

- Employees who work at least 8 hours per week in San Francisco and work at least 40% of their weekly hours in San Francisco are eligible to receive up to 100% of their weekly wages during the CA PFL new child bonding period capped at **\$2,567 for 2022** (60% from PFL and 40% from the employer).
