

*A restaurant for 24 guests. Focused, quiet, handcrafted.
Built on precision, calm hospitality, and a clear spatial idea.
A space that doesn't want to impress – but to resonate.*

IN | PERFECT – A Place for Quiet Grandeur

With a background in international fine dining, understated luxury, and precision in the smallest details.
Shaped in houses where it's the details that matter – not the volume.

IN | PERFECT is not a conventional restaurant concept for Stockholm –
it's a decelerated response to a noisy world.

No distractions, no excess. A maximum of 24 guests per evening, a fixed structure, a clear design language.
The atmosphere: quiet, focused – supported by soft acoustics, muted light, and carefully curated music.

Who we're looking for:

Partners who understand that it's not about footfall or visibility,
but about atmosphere, structure, and trust.
We value those who see space not just as square meters, but as mood and presence.

Ideally with the following characteristics:

- Approx. 120–160 sqm with a calm, clear layout
- High ceilings (≥ 4.50 m), possibly allowing for a mezzanine
- Grease separator (fettavskiljare) and ventilation available or possible to install
- Willingness for a collaborative approach in terms of fit-out and rent
- Urban yet quiet surroundings, accessible – ideally in a 2nd or 3rd row location
- Raw condition preferred – we build and finish everything ourselves, with craftsmanship and restraint

What we're not looking for:

We are not seeking bold design gestures, but quiet spatial structures that create clarity through calm.

What we need:

A tranquil location with good connection, reliability in planning –
and people who understand the power of quiet.

What we bring:

- A well-developed, capital-strong concept (approx. 80% equity)
- A design philosophy that unites craftsmanship, technique, and artistic intention
- A long-term vision for a small, quiet, independent house

What makes this special:

IN | PERFECT does not view gastronomy as a system, but as an attitude.
Not maximal – but essential. Not pleasing – but moving.
Our brand doesn't emerge through visibility, but through quiet impact.

The name IN | PERFECT is deliberately dual in meaning:

In perfect – as a mark of mindful precision.

Imperfect – as an embrace of human imperfection.

Both belong together. This is not a place that seeks to impress –
but to resonate. Quietly, lastingly, and with conviction.

Our research in Tokyo, Switzerland, the Netherlands, and Denmark showed one thing clearly:
Stockholm uniquely combines cultural depth, urban development, and human restraint.
Only here did we find the space – mentally and physically – that this concept requires. We are prepared to
walk unusual paths – with inner clarity and reliability in execution.
Our goal is a quiet place. And that begins with a clear space.
