

MITSUBISHI ASX XA WAGON 08/10 - ON

PART NO.

UNT290

Part 1 - 12 Pin Connector

1. In the cargo area, remove the floor carpet and parcel shelf.
2. Fold rear seats forward.
3. Remove the centre rear trim by removing the two retaining clips.
4. Remove drivers side panel and locate 12 pin connector.
5. Plug in matching 12 pin connector on supplied harness.
6. Mount ECU box using double sided tape provided.
7. Route five core cable to trailer socket mounting position. Make sure cable is securely attached using zip ties or similar (not supplied) and maintains a safe distance from heat or sharp edges.
8. Replace all parts removed in the reverse order as above.

Part 2 - 4 Pin Connector

9. Locate 4 pin connector in the engine bay. It can be found on the passenger side of the engine bay between the battery and headlight.
10. Remove the blanking cap from vehicle connector and plug in to 4 pin connector on harness.
11. Connect the ring terminal on harness to the positive terminal on the vehicle's battery.
