## Fitting Instructions

## DAㄷ

TAG Heavy Duty Towbar to suit Ford Ranger (09/2011-05/2022), Mazda BT-50 (09/2011-10/2020)

IN THIS GUIDE

- Towbar Class: Heavy Duty, Extended 3-Piece
- Towing Capacity: 3500kg
- Fitment Instructions
- Torque Settings
- Warranty Info

## Towbar Fitting Instructions

Tools Required: Spanners, Sockets, Torque wrench

| Kit Contents |  |  |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :---: |
| Item | Description | Qty | Item | Description | Qty |  |
| 1. | Towbar Centre Section | 1 | 10. | M12x1.25 Nut | 8 |  |
| 2. | End Plate Subassembly PS | 1 | 11. | M12 Shake Proof Washer | 20 |  |
| 3. | End Plate Subassembly DS | 1 | 12. | M12 Flat Washer | 30 |  |
| 4. | M12×35×1.75 Bolt on Wire | 2 | 13. | TAG Hitch Collar Cover | 1 |  |
| 5. | Spacer 3mm | 2 | 14. | Class 4 Pin \& Clip | 1 |  |
| 6. | Chassis Top Plate | 2 | $\ldots$ | Door Sticker | 1 |  |
| 7. | M12×35×1.75 Bolt | 10 | $\ldots$ | Spare Compliance Sticker | 1 |  |
| 8. | M12×1.75 Nut | 6 | $\ldots$ | D-Shackles | 2 |  |
| 9. | M12×45×1.25 Bolt | 8 | $\ldots$ | $\ldots$ | $\ldots$ |  |

## Towbar Fitting Instructions

## Step-By-Step Instructions

## Warning:

- This product is for towing purposes only and must only be loaded as shown in your vehicle Owner's Manual.
- This towbar is NOT to be drilled, cut, welded, or modified in any way.
- Check behind chassis rail and body panels before drilling to ensure no hazards are present
- All load ratings shown are under the assumption your trailer has a functional braking system installed
- When installed in positions other than the one depicted in these instructions the Tow Ball Mount may interfere or obstruct certain features of your vehicle (tailgate opening, Chassis clearance, etc.)

## General:

- Before fitting this towbar read fitting instructions and check installation hardware is correct.
- Check that the towbar is suitable for the vehicle and be wary of any changes to the vehicle design that may conflict with the fitting of this towbar. (Tray, Canopy, Suspension etc.)
- After drilling, blow any filings clear, remove any swarf and treat exposed metal with a rust inhibitor.
- The high tensile fasteners supplied with this product are an integral feature to achieving the specified rating, if replacement is required ensure that fasteners of the same grade (8.8) \& quality are used. Contact an authorised TAG distributer or the TAG fitment centre - (07) 3208 3022 - if further information is required.

## Towbar Maintenance and Care:

It is recommended, when not in use, the Tow Ball Mount assembly and class 4 Pin and Clip is stored inside the car away from moisture to prevent standing water from forming rust. Inspect to ensure, on regular basis, fasteners are torqued to the specifications below and in good condition.

Ensure that the fitting instructions are read and understood prior to fitment Place these instructions in the vehicle's glovebox after installation is completed

## Towbar Fitting Instructions

## Step 1. Attach Towbar End Plates

a. Loosely secure both towbar end plates to the chassis \& refit the rear step in the following order.

- Using 3x M12x1.75x35 Bolts, Flat and Shake Proof Washers in the captive nuts on the outside of each
 chassis rail. Note there is no captive nut for one bolt, this will require a nut and washer on the inside of the chassis rail
- Using 1x M12x1.75x35 Bolt on Wire \& 1x M12x1.75x35 Bolt downwards through the Top plate and vertical hole in each chassis rail. Secure with Flat Washers, Shake Proof Washers and M12x1.75 Nuts.
b. Tighten the bolts to hold the end plates against the chassis rails. DO NOT tighten to torque spec.

## Step 2. Determine if Spacers are required

a. Position the Towbar centre section between the two end plates.

- If there is more than approx. 3mm clearance between the parts on each side, then spacers will be required.
- If the clearance is less than this, spacers will not be required between the parts.

## Towbar Fitting Instructions

## Step 3. Secure Towbar Centre Section and Torque Bolts

a. Using $4 x$ M12x45 Bolts, Shake Proof Washers and Nuts, $8 x$ M12 Flat Washers, and 1x Spacer (if required) per side. Bolt head should be on the outside and shake proof washer should be on the inside of the flange. Loosely secure the towbar centre section between the end plates.
b. Ensure centre section is right side up with the hitch receiver bellow the main cross-bar.
c. When all hardware is in place, tighten all bolts (including those into the chassis rails) to the torque specified.
$\mathrm{M} 12=100 \mathrm{Nm}$

## Step 4. Apply Compliance Label

a. Apply Towbar info label to the inside of the driver's side door Jamb.

## Torque table for bolt tightening

| Diameter | Pitch | Grade | Torque | Unit |
| :---: | :---: | :---: | :---: | :---: |
| M8 | 1.25 | 8.8 | 29 | Nm |
| M10 | 1.25 | 8.8 | 57 | Nm |
| M10 | 1.50 | 8.8 | 44 | Nm |
| M12 | 1.25 | 8.8 | 101 | Nm |
| M12 | 1.50 | 8.8 | 97 | Nm |
| M12 | 1.75 | 8.8 | 77 | Nm |
| M14 | 2.00 | 8.8 | 122 | Nm |
| M16 | 2.00 | 8.8 | 190 | Nm |
| Imperial Bolt Torque Settings |  |  |  |  |
| $3 / 8^{\prime \prime}$ | UNC | 8 | 44.75 | Nm |

## TAG Warranty Statement

SWD warrants your TAG Towbar for its full product life under the following conditions:

- You can show proof of purchase.
- The towbar has been correctly installed by a suitably qualified installer.
- The towbar has not been modified or abused in any way and has only been used for the intended purpose.
- The towbar was not fitted second hand to your vehicle.

The extent of this warranty includes materials and workmanship used in the manufacture of the towbar and is to the equivalent value of current, full replacement cost.

Nothing stated or implied in this warranty limits in any way, the statutory rights that you may have.
To make a claim visit the original installer in the first instance or, if you are unable to or are not satisfied with their help, then contact us direct by phone on 1300669122 or visit www.swd.com.au
