SKILLS

I am a diplomatic, well-rounded and motivated student studying Political Science at McGill University. In addition to full-time studies, I am a competitive swimmer for the McGill University varsity swim team, where I qualified for the Canadian National USPORTS Competition in 2019. As a competitive swimmer, training requires more than 20 hours per week. Managing the commitment of a varsity sport and the rigor of McGill University's academics, is a reflection of my ability to work hard and multitask. I am proficient in microsoft applications such as Word and Excel. I am looking for an opportunity to broaden my language skills and knowledge through international work and travel. Additionally, I am proficient in French and German languages, both learned through class and travel.

ACTING: I have experience acting in improv and scripted work. In high school, I participated in theatre for two years. For the past several months, I have started to practice acting again at ASM Studio in Montréal. I am very motivated and reliable. I have also had wonderful experience and have been lead by talented people.
