**Get to Know Me:**

*My name is Stephanie Darucaud but I am known as "Ivy Sunflower". The name symbolizes happiness and longevity. I live my life with a strong sense of positivity for the future and what's to come. I am pursuing a career in the creative arts and plan to open up my own black box theatre for the community. I am an actress amongst several other titles. In 2013 I organized my hometowns' First Annual Benefit Concert for HIV/AIDS. I consider myself to be driven, hard working, and passionate about my career. I am a leader, an active learner and listener, and a major element to the team. These are a few things I can bring forth, along with a grand smile to top it off. My objective is to be an artist, enjoying life doing what I love best, performing. I plan on inspiring others to follow their dreams and not be afraid to do so. Whether it be because of social standards or the behaviorisms shown in the industry that may not be who they are, I want those individuals to feel empowered. Real people with real talent.*
