I am seeking to enter in film, tv, commercials and print work. I am highly creative with a quick-satirical bent. I have found that no endeavor is as rewarding then seeing a mere thought turn into some great piece of art that's enjoyed by others. Recently, I made a career change instead of the 9-5 office job to do what I really enjoy. My past endeavors have included fine arts, book illustration, lead singing, poetry, satirical/creative writing, computer input/editing for Naval ship weapondry building manuals.
