Cover letter

Fun, energetic and as quirky as they come. I love to entertain people and give them something that they look forward to watching. Falling under the variety of an average heartthrob, hopeless romantic and even the mastermind antagonist, I like to believe that I follow a diverse criteria when it comes to the character's that I have at the ready in my tool belt. Travel is no barrier to the thrill of being part of a project! With your help and this opportunity it would be my pleasure to be part of a project that allows for a new learning experience and to be able to have an impact on those that watch it. I would love to be involved, and will do everything to better myself and the project during it. Thank you for the opportunity and I look forward to working with you soon!
