I have been fortunate enough to volunteer to aid a friend of our family. He is a 28-year-old man who suffers from Cerebral Palsy named Joseph. He is unable to care for himself. Three to four days a month I help him with personal care, daily activities and transport him to appointments. I enjoy spending time with him and helping him with his everyday life. It is very rewarding as well as humbling. I believe this experience will enable me to be an asset to Sean. I enjoy working with those who have special needs and I feel I make Sean comfortable and cared for.
