## PERSONAL PROFILE

I am from Venezuela and I currently live there. I am 17 years old and I am a person with a passion for series and movies, I believe that acting is a very exciting and an art of great importance and responsibility. It is something that has always caught my attention practicing and learning from it. The only experience I've had is in different school plays. I love acting and dancing and would love to work on it, besides I really like talking about different topics, which is why it has a lot to do with the career I study. I like to write, learn lines, read, learn English and travel.

## ACADEMIC BACKGROUND

Arturo Michelena University of Valencia, Venezuela  
Social communication student. August 2021

This career has many branches that have to do with entertainment, I like everything that has to do with television. Talking is something that I like and it comes out a lot easy, for which the reports are something that also attracts my attention to work. In my university they also give us writing classes, the writing a story or news is something that this last year I have developed a little more, I am open to all the possibilities that exist, of course, more of acting.

Regarding my knowledge of English, I have not done any formal classes, I know a little of the idiom since I have learned by myself in the last two years watching series and movies. I am at B3 level of English. I am not shy to speak the language, I can learn things with it, and I can understand most of the words that Americans say. Likewise, if it is necessary to more advanced English in a few months, I will happily do it and be ready.
