Hello, my name is Shiesha Mitchell, I'm currently 22 years of age. My birthday is November 4th. I am currently in school for Early Childhood And Special Education (online). Kids warms my heart, I love to see kids learn and progress in life. I love having communication with the kids parents telling them everything thing they need to know about their child such as good thing and things they need to work on. Also I have a passion of cosmetology. You can't go wrong with hair, it's never leaving this world! I love making people love their self all over again once I show them their hair and also makeup. Also, This year I recently gotten my cdl class A. Some people ask me why did I do that and I'm a female. Well it's also good to have a lot of things under your belt, something that can benefit you in the future. Everything I do I always think about my future. There will always be kids in this world, there would always be someone needing their hair done and there is always a truck that needs to be moving. Without truck drivers a lot of people would be suffering right now. I've been casted in tv shows such as "BMF" and movies called "Praise This". When being on set it definitely taught me a lot, which is networking & being available at all times! I would love to be an actress, even if I have to go to acting school! My main goal in life is to be successful and happy!

Willing to relocate: Anywhere

Authorized to work in the US for any employer
