Summary

Michael provides creative services such as illustrations, musical compositions, and concept art. His specialty is in helping storytellers and multimedia artists to bring their visions to life.

He has ten years of total experience in digital art and is proficient in creating visual effects using Adobe software such as After Effects, Premiere Pro, and Photoshop. Michael is also skilled at using programs such as ToonBoom, Adobe Animate, and TVPaint to create 2D animations.

His visual work has been featured in five public art exhibitions, three serially published comics, and various blogging websites. Much of his art features motion graphics, 3D modeling, and computer animation.
