WHAT PEOPLE SAY ABOUT WORKING WITH US

HOLIDAY INN CLUB VACATIONS

The Sanchez Family was incredible to work with. Jessica and Rod create amazing content — they are extremely talented, creative, and they have an authentic voice and connection with their audience. On top of that, they were extremely professional, communicative and always on time for productions and content submission deadlines. They are always eager and excited about the work they're doing, from content creation to early morning production times. We loved working with their family and would recommend them for any kind of content or production partnership.

MARRIOTT INTERNATIONAL

Working with The Jetsetting Family was delightful! Jess and Rod went above and beyond in delivering creative quality content for the Sheraton Buenos Aires, and I was so impressed with their work that I also collaborated with them on projects with other Marriott properties in Chile and Peru. I look forward to working with them in the future.

GRAND HYATT KUALA LUMPUR

From the initial arrangement to final deliverables of our collaboration, The Jetsetting Family was very fun to work with and both Jessica and Rodrigo were very professional. They manage to deliver our agreed contents in a timely manner and we absolutely adore all the photos taken in Grand Hyatt Kuala Lumpur. Looking forward to welcome the family again!

SAWYER AND FINN CLOTHING

The Jetsetting Family has been a dream to work with! In addition to gorgeous photos, they deliver a clear message to their followers about the products they love. As a boys clothing company, they have brought us new followers (and customers!) by communicating clearly, showcasing our products on Santi as they travel, and having a REAL, engaged audience that are following along with their journeys! We look forward to many more opportunities to work with them in the future!!
