### Certifications

Automotive sp2

### Sports

I played soccer from the age of 6 or 7 I started kicking a flat basketball because I couldn't ask for a ball until later on then I would kick it to the wall and try to keep it up I started to play for church then in 7th grade I got into the soccer team for school didn't score much but that year I practiced more than ever even up to now I still don't practice as often as I used to, that school year I probably score over 25 goals and took over 20 players in 3-6 games these games were a school tournament with 8th graders and 7th graders it was much fun then I played for my freshman and sophomore year, I would like to blame support because I had none I wasn't able to continue playing after sophomore as family and friend's company led me to a different path. I had the thought of becoming a professional soccer player at the age of when I was in the 8th grade. I still have the opportunity to try out for professional teams but still not support and with the lack of money.

I played football in the 7th grade.

#### Awards and Accomplishments

7 ropes in high school with a high school diploma .
