

Rossella Rodio

I am a muse, model and actress based in Turin (Italy) with more than 2 years of experience as a freelancer in the modeling industry. Merging my creative mind with a background in drama and communication studies and a training in introspection, I love to challenge myself with opportunities that are diverse.

I am passionate about fashion, philosophy, art, and entertainment. I am fascinated by the digital world and curious about the rising Metaverse and NFT's, both from a market as well as a creative perspective. I am looking for an opportunity to gain experience in these fields. I am not afraid to accept the challenges. I learn quickly, and the knowledge of several European languages encourages my desire to explore new opportunities abroad. Working in a team is a chance to learn and share my skills and to improve always, but I am never afraid to stand out and step out of the box. I believe in myself, in hard work and in transparency. The best way to describe myself is through my favorite quote from Shakespeare: "And though she be but little, she is fierce"
