Executive Compensation Research Associate

02/2022-05/2022

Glass Lewis & Co.

- Collected and organized proxy statements and any pertinent documents and data through the Intelligize system, as well as through the SEC EDGAR system
- Conducted daily routine perusal of company proxy statements for the discovery of information on executive compensation and made personal voting recommendations based on discovered information
- Assisted in the collection of director compensation information for every company in the Russell 3000 Index

Research Associate

10/2019 to 04/2021

Christian Doppler Laboratory at TU Graz

Graz, Austria

- Conducted genetic experiments utilizing oligonucleotides designed and printed in-house with the company Kilobaser GmbH's proprietary synthetic DNA printing device
- One of select few research laboratories permitted to perform laboratory research under strict federal and state Covid-19 procedures during lockdown
- Designed protocols to prepare gene fragments utilizing methods including multiplex PCR
- Applied troubleshooting parameters when necessary for Kilobaser printer after successful guided training
- Assisted in laboratory SOP compliance training of undergraduate students in CD laboratory

Associate Quality Control Analyst

01/2017 to 09/2017

Q2 Solutions

Marietta, Georgia

- Reviewed run binders files of pharmacokinetic ELISA assays to ensure there were no deviations pursuant to GDP and internal SOP compliance
- Utilized Watson LIMS software to verify data integrity from bioanalytical tests
- Developed a form for technician's bioanalytical run binders called the Observation Log, a checklist to mitigate chances of compliance deviations in experiment documentation
- Membership with Q2 Solutions Leadership Council and Employee Engagement Committee

Field Assurance Specialist

06/2016 to 12/2016

CR Bard

Covington, Georgia

- Contracted to review medical device batch records from current and previous years
- Coordinated the review, investigation, and corrective actions associated with medical product complaints per corporate and federal regulated policies and procedures
- Performed final closure review of complaint files and generated product complaint reports for management
- Achieved the highest number of complete and accurate documentation review closures during an internal audit
- Maintained correspondence with statewide and international field assurance and medical personnel

Associate Analytical Chemist

12/2015 to 05/2016

Georgia-Pacific LLC

Decatur, Georgia

- Six-month contract to assist primary analytical chemists in the characterization of samples from clients
- Operated high-performance liquid chromatography, gas chromatography, and gel permeation chromatography systems with adherence to laboratory SOP

Organic Chemistry Tutor

08/2014 to 04/2015

Armstrong State University

Savannah, Georgia

- Helped students who needed assistance understanding lecture material, as well as assisted in laboratory documentation and data extrapolation

Education

Georgia Southern University

Bachelor's

Biochemistry

Savannah, Georgia

2010 to 2015
