Unloaded; UPS; Livonia, MI — 06/2022–Present

Unloading packages from incoming trucks. Ability to lift 50+lbs and repeat strenuous activities for extended periods of time.

Sorter; Amazon; Romulus, MI — 12/2021–06/2022

Sorting packages, using RF scanner. Directing packages based on label and location.

Order Selector; D&B Grocers; Westland, MI — 09/2019–Present

Picking food items, by use of electric ride on pallet jack, based on orders. Then palletizing orders, wrapping pallets, preparing them for shipment.

Order Selector; Penske Logistics; Romulus, MI — 07/2019–09/2019

Using company headset to follow directions and fulfill orders based on information via headset. Using electric ride on pallet jacks and Hilo's to retrieve items specified for each order.

Machine Operator; Hallite Seals Americas; Wixom, MI — 03/2019–07/2019

Operating machine, automatic and sometimes manual, to melt polyester and use it to create seals for fuel pumps.

Picker/Material Handler, LKQ; Romulus, MI — 09/2018–01/2019

Operating cherry picker to stock bins containing automotive parts and picking parts to bring to loading area for drivers. Using RF scanner to scan parts into inventory system. Overlooking driver orders to ensure that correct parts are returned and performing quality checks.

Press Operator, Bayloff Stamping; Belleville, MI — 06/2018–08/2018

Operating press machine to weld various automotive parts. Responsible for keeping track of my production, which I'm expected to meet a certain volume. Assigned to different work stations, welding different parts, depending on where I'm placed. Building pallets with finished parts and labeling them.

Material Handler, Howard Ternes Packaging; Westland, MI — 05/2016–03/2018

Packaging automotive parts, ranging from bolts & bumpers to transmissions & engines. Responsible for running 2 lines, reading work orders, ensuring parts matched order, entering info into computer. Then palletizing all parts, labeling pallets & moving to loading dock with pallet jack.

Package Handler, Fedex Ground; Belleville, MI — 10/2014–05/2016

Using RF scanner to read barcodes on packages, directing them based on barcode info, then palletizing them. Finished pallets were wrapped & scanned into database, then taken to correct loading dock by use of pallet jack. Unloading packages onto conveyor and loading trucks as well.
