Overview

I have been on stage since I was a little girl performing in plays and dance recitals. It wasn't until 2022, in which I discovered that performance is my purpose and my passion. I am extremely animated with my facial expressions and I have a wide range of emotion. As a Cuban, I grew up dancing and singing and have done so for 30 years. I am also a professional athlete and fitness instructor for over 12 years with extreme flexibility.
