BIOGRAPHY

Amin Yekta is a motivated and committed Actor with strong film instincts and experience, while wanting to embrace the new works within the fields of Film and Television. He tries to strive for realism of characters, therefore possessing a solid work ethic which compels him to keep tweaking the acting of the character, until director is fully satisfied with his performance.

With the help of training/education in Media and Literature, his experience in creating and analysing Narratives, Ideologies, and the Impact of Media has helped shaped his way and vision of creating his own narratives that explore a range of themes connecting to him. To also understand characterisation in my training/education, has also helped Amin how to craft and understand characters within scripts and how analyse them in order to find ideas and deeper meanings to connect within society.
