EXPERIENCE

Blaze Pizza Del Amo Mall

August 2021- June 2022

I worked as a team member making pizzas, serving, working the register, cleaning, and washing dishes. A couple months later I acquired a paid internship at the boys & girls club, so I was juggling 2 jobs and school.

Harbor City Boys & Girls Club

November 2021- May 2022

I had a paid internship I acquired through the South Bay Workforce. At first they gave me 120 hours and if they liked how I work they would let me renew the internship, so after those hours finished I renewed my hours and got another 150 hours. At this job I took care of kids, served them supper, helped with homework, cleaned, and helped at events.

Lisi Aerospace (Human Resources)

July 2022- October 2022

This was another internship I acquired through the South Bay Workforce where I basically was the assistant in the Human Resource Department. Whatever filing, paperwork, organizing, I would do for them.

Music

2016-

I have been making music and rapping since 2016 after a performance in front of a large crowd in an event at school. Ever since then, I have only been going up in quality and everything of that sort. My music I would say really displays how hardworking I can be.

SKILLS

Good team player

Very social and can carry a conversation with anybody
