SUMMARY STATEMENT

College educated, and detail-oriented individual with experience in Real estate, analytics, Business management, and also Sports Marketing. Intermediate in the language of Spanish. During my time in high school, and college I had the honor of playing varsity men's soccer. During the starting year of 2012 I had the honor of joining the Young Marines ROTC program of Rome GA which was a semi military program experience. In this program they prepare you with discipline and honorary skills to prepare you for the military if that's what you want to achieve, and to be a civil citizen.

With my skills and qualifications I feel like I am more than capable to appeal for many positions and, put a hundred percent towards any career that is chosen for me!

PROFESSIONAL SKILLS

I have adapted knowledge and experience with Business Management, and Sports Marketing and Administration. During the Bachelor's degree process, all of my classes and projects were business minded and taught different ways to be a successful business minded individual. During the time of my Master's degree I majored in Sports Management and Marketing.

During my time in high school and in college I've taken advanced level Spanish classes and I have done some adapt classes on my own and would consider myself an intermediate level Spanish language speaker.

I have experience in Data Analytics, and also identifying trends in business models. During my time at Reinhardt University I developed and implemented data management strategies to help improve the financial aid offices portfolio and spreadsheets. Provided recommendations of improvements through email. Also while working in that position collaborated with a unique team that also helped in discovering the short falls of the University

Real Estate experience is also in my portfolio of specialized traits after my time at Reinhardt University. I developed the will and motivation to dive into Real Estate in the time of November of 2022. I practiced Real Estate, and I've also had two successful mentors that were in the field that acted as teachers for me that taught me ways to live and breath selling.
