Education

Bachelor of Science Jun 2000 – May 2006

University of Georgia, Athens

No prior experience. I am excellent with people and can carry on a conversation with a brick wall. I am very interested in seeing how that superpower will transfer to an acting career. I am a very laid back person and I have a lifetime of experience to pull from for the full range of scenarios. My young adult life is one that you would see in a lifetime movie.

I enjoy working and being around people. I thrive under pressure and I love to do what I can to help make things easier for others. I am constantly looking for ways to challenge myself and make a better life for my family.
