## EDUCATION

### Koonung Secondary College

2020-present

During school hours I participate in many clubs including the school representative club and Interact Club (host events to raise money for charity), Art Space (immerses me into the art and creativity mindset) and Think fast Mentoring (Mentoring and supporting year 7 and 8 learning to improve their skills and gain more confidence in their work)

## LANGUAGES

English 

French 

## PROFILE

My passions revolve around looking after and protecting the environment while focusing on my school studies, as well as art and design where I took and still take part in local art competitions. I am socially confident and enjoy interacting with people that share the same interest as me but can interact with anyone. I am an extrovert and intuitive, follow my heart and head whenever I can. I am highly motivated and confident individual with a track record of achieving success through determination, which drives me to excel in both personal and professional endeavors.

## WORK EXPERIENCE

### Ecosystem, Forestry, Agriculture and Food Sciences

Melbourne University 2023

- Took place in many experiments involving Ecosystem, Forestry, Agriculture and Food Sciences.
- Collaborated with many experts in the different fields and gained a better insight of the jobs in the field
- Collaborated with other year 10 students for multiple group projects throughout the week, and communicated effectively to produce a project
- Travelled to rural area to investigate different plants and crop growth in the area
- Attending small lectures and seminars to immerse myself into the field

### Front of House Manager

Koonung Secondary College 2022-2023

- I was chosen the role of Front of House Manager for the Seussical Production 2023 at Koonung Secondary College
- I managed many young students and worked collaboratively to welcome and make guests feel comfortable.
- Serve guests concessions continuously through the night enhancing my communication skills and more easily approachable for others
- Engaging in group activities or discussions stimulated creativity, with different perspectives and ideas which creating innovative solutions and fresh insights to welcome guests and create a safe environment

### goIT girls Work Experience

Tata Consultancy Services 2023

- During the program I developed technical skills and employability skills, and was provided an insight into the industry of technology with female role models and their journeys into this path.
- Throughout the work experience I critically developed a solution to sustainability for the future and ways for people to decrease their carbon footprint
- Many collaboration activities were held where my group and I successfully communicated to finalise several projects

### Science Experience

RMIT University 2023

- During the program I developed collaboration and communication skills as well as comprehending insights into different science fields.
- Working in groups for most all the activities helped me grow strong friendships
