## PROFESSIONAL SUMMARY

---

My name is Emilie Franz and I am dedicated to gaining knowledge and skills within the theatre and film/television industry. I have always had a passion for production whether live or filmed, and I am now pursuing my passion by studying film at Sheridan College. However, from a young age, I have been involved with many theatre productions that have given me basic knowledge of theatrical terminology and production requirements. The idea of being a part of a production crew seemed like home to me. I felt as if I belonged as my personality was well suited to the environment of the entertainment industry. As much as I love acting, I certainly have a more profound passion and appreciation for what goes on behind the scenes. The effort, detail, and dedication that goes into organizing events is what I believe to be the true talent. That feeling has inspired me to gain any form of experience to create a career that I would love to do every day. I have been involved in leadership and teamwork roles through sports leagues, activity clubs and organizations that have allowed me to hone my skills in communication, problem-solving and most importantly, time management. I am confident that I will be a strong asset to the production crew.
