About

Acting has been a natural transition for Kai because of his love of story telling and creativity. He is a straight "A" student and earned a spot in the National History Championship challenge 2023. Before he signed with an agent, Kai had been loved by BG casting directors and they booked him steadily and featured him on several shows while he was getting settled into Atlanta and obtaining an agent. Kai is using his improv skills and love of adventurous eating by creating his own food show on YouTube. He is fully vaccinated, has current work permits for Georgia, California and New York. His passport is up to date and he has a Coogan account open and in use. Kai is currently seeking new representation.
