About Me

I have always enjoyed work no matter what task I was assigned. I have my own small Business that I do on the side selling cupcakes. Cleaning and organizing things is something I have always enjoyed. I loved being on the high school dance team last year and I was awarded the hardest worker award. Before that I clogged and did ballroom. I have been dancing since I was 5 years old. I love to sing and have enjoyed voice lessons. This helped me get two solos in the school play my senior year.

Experience

Coppin's Hallmark 04-2023-Present I love this job so much, but I can only get part time hours and I need a full time job. My responsibilities are unpacking shipments that came in, selling product, cleaning up the store, setting up displays, balancing cash after close, and helping customers any way I can.

BeKlean 08-2023-Present I started this job 3 weeks ago, not knowing I'd be moving. I am doing both residential and commercial cleaning. This is a very physical job but I like it.

Butterfly Express 2018-04-2023 I worked in many departments including shipping, production, and some kitchen. My responsibilities in shipping included filling product, pulling, packing and shipping orders. In production I filled product and, labeled them. I also worked on the computer to complete builds and move inventory. My work in the kitchen included creating and mixing many products. I worked with many types of equipment and followed a variety of procedures. I also moved inventory in the computer in this department as well. This was a wonderful job and I loved the people I worked with. I was looking for more experience and better pay.
