## Work History

### Hernando High School - Actor

08/2014 - 05/2018

- **Human Video** - Performing in a human video to the song "Viva La Vida" involved a combination of dramatic movements, synchronized choreography, and emotional expression to convey the themes and energy of the song. As one of the Dancers I portrayed a narrative inspired by the lyrics, such as themes of redemption, power, and revolution. The choreography incorporated elements of contemporary dance, theatrical gestures, and dynamic formations to mirror the ebbs and flows of the music. Overall, the performance aimed to captivate the audience with its intensity, storytelling, and visual spectacle. With these my team of talented actors and I won 2 gold medals for best performance.
