

Commercial experience

The past 10 years I have done sort of 'normal' commercials for everyday brands like Tuborg, Burger King, Arla, SAP, Marienlyst Hotel, and DriveNow as an actor/model. On average I've done 2 commercials a year. I get energy from being in front of the camera performing whether it's as a fashion model or an actor. It has been both still photos and films.

During high school and university I participated in amateur short films by amateur photographers and directors, some of them who are in the film industry today, perfecting my comfortability in front of the camera.

Hobbies

During my free time I enjoy playing around with my two kids (boys at the age of 3 and 4). I enjoy working out, running in the park, playing table tennis, badminton, padel tennis, soccer, mountain biking and driving old motorcycles with my wife. I play the drums, not currently in a band, but previously I would rehearse twice a week and perform concerts in Copenhagen and in the outskirts. Now I only practice once in a while when I am home alone. During winter I go skiing/snowboarding.
