Hello my name is John but I go by Houston. I am from Charlotte NC, but moved to Columbia in middle school. I grew up in a very prestigious and intellectual household. I currently have no degree but only just a good bit hours for semesters. I am very intuitive and believe highly in self progression and always staying busy or finding ways to solve a problem. I Excel in skills that include extreme creativity and perciseness. I am very willing and very interested in any activity or task that must be done to completion. I am an over achiever but also an independent hard worker and competitive when need to be. When I put my mind to something, I make sure it is done properly, in a perfect and neat fashion.

Willing to relocate: Anywhere

Authorized to work in the US for any employer
