Child Care

In Home Childcare - Knoxville, TN

February 2012 to October 2018

I am very good with kids, as I can be a kid myself at time's. I understand kids require a lot of patience and understanding while getting to know them gaining your trust and teaching them to become the very BEST versions of themselves as they get older & go through life. It's very Important that you come to their level and always make eye contact with them always explain and speak In a low toned calm voice with whatever they ask or If It's being direct, or something they're needing help with. I have kept kids In my care from newborn up unto 8 & 10yrs of age, sometimes 8 kids at once. I know how did I mange all 8 kids your wondering ? To me? EASY. Their parent's NEVER complained or worried. And I have references as well If needed to verity.

Thank you.
