PROFESSIONAL SUMMARY

Seeking a challenging internship opportunity in Biologics Analytical R&D at AbbVie to leverage my skills and knowledge in pharmaceutical sciences, analytical chemistry, and data analysis while gaining practical experience in a dynamic industry setting.

PROFESSIONAL EXPERIENCE

Morehouse School of Medicine

Atlanta, GA

Summer Bridge Data Research Intern

June 2023 – July 2023

- Accepted into Master's of Biotechnology program
- Obtained knowledge on intellectual property in biotechnology with project management
- Gained knowledge of data visualization in Canva and Tableau for visually engaging presentations
- Created medical literature summaries for health technology and review medical journals (PubMed)
- Created engaging health awareness content through social media: podcasts, emails, and videos
- Received knowledge on lab safety and GLP, GCP, and GMP with clinical research
- Conducted med tech storage and capacity limitations
- Collaborated on a culminating project: value proposition and business model of a biotechnology

Children's Healthcare of Atlanta Transplant

Atlanta, GA

Project Data Coordinator

May 2020 – Present

- Cultivate and nurture strong client and faculty relationships, ensuring satisfaction and engagement.
- Maintain timely and professional communications, leveraging written and verbal skills for effective client engagement.
- Develop a comprehensive understanding of client organizations, products, disease states, and medical education needs.
- Create project budgets, managing budgeting, financial monitoring, and reconciliation for individual projects.
- Play a key role in new business development within the account team, contributing to the expansion of client portfolios.
- Train new account members in proper execution of assigned project tasks.
- Collaborate with solution architects, developers, and product managers to deliver automated processes, replacing manual operations.
- Design and implement scalable automation workflows using BPMN, ensuring efficiency and reusability.
- Proficient in data ingestion technologies (Alteryx, Azure Data Factory, SSIS), data visualization tools (Tableau, PowerBI), and RPA tools (UiPath, Automation Anywhere).

Wellstar Health System

Atlanta, GA

Laboratory Analyst Intern

September 2023--February 2024

- Conducted literature reviews and assisted in experimental design.
- Analyzed data using statistical methods and software tools.
- Assisted in conducting experiments and studies in chemical and biophysical laboratories.
- Prepared solutions on a wt% basis, performed filtration, filled vials, and conducted freeze-drying processes.
- Conducted analytical and physico-chemical testing using HPLC, DSC, and UV-vis spectroscopy.
- Documented experimental procedures, results, and data analysis.
- Collaborated with team members to achieve project goals and deadlines.

LEADERSHIP and AFFILIATIONS

National Society of Leadership and Success

Atlanta, GA

Active Member

November 2013-Present

- Develop leadership and team-building skills by participating in group discussions and group projects.
- Learn what it takes to become a great leader in a big or small organization and inspire students

Healthy-100 Black Men of Northwest Georgia

Atlanta, GA

Vice President of Finance and Social Media Manager

May 2015– May 2022

- Ensured consistent integration of racial equity into all communications activities and messages across projects and advocacy campaigns
- Stay up to date with social media best practices, informing the president of news, updates, and trends
- Work closely with peers in other positions to create budgets for recruitment of black men from 30% to 78%.

VOLUNTEER EXPERIENCE

Wellstar Douglas Hospital

Douglasville, GA

Volunteer

April 2014- Current

- Trained and prepared to assist when hospital is in FCP (full capacity protocol)

Million Meal Pack Atlanta Hawks

Atlanta, GA

Volunteer

August 2018- Current

- Create and packaged sandwiches for the homeless and less fortunate families.
- Help plan goals for the next upcoming week to provide medical assistance and awareness for families.

EDUCATION

Georgia Highlands College

Rome, GA

Bachelor of Science, Health Sciences, Minor in Biology

August 2017-May2022

Morehouse School of Medicine

Atlanta, GA

Master of Science, Biotechnology

August 2023-December 2024

SKILLS

CORE:

- Proficient in laboratory techniques and equipment operation.
- Strong analytical skills with experience in data analysis and interpretation.
- Learning in chromatography, calorimetry, and spectroscopy techniques.
- Excellent communication and collaboration abilities.
- Detail-oriented with a focus on accuracy and precision in experimental work.
- Proficient in Microsoft Office Suite and data analysis software.

CERTIFICATIONS:

- Biomedical Responsible Conduct of Research CITI Program
- Good Laboratory Practice (GLP) CITI Program
- Six Sigma Certified (Yellow Belt)
- Learning Python, R, and SQL
- Annual OSHA Bloodborne Pathogens Training CITI Program
- OSHA Personal Protective Equipment Training CITI Program
- CPR Certified
- Microsoft Office Certified
