TESTIMONY

I was born and raised in a Christian home. Both of my grandmothers were highly instrumental in speaking into my life. They were each a pillar of faith that I aspired to be like. Like many teens, I drifted away from God in high school, but found my way back and was more on fire than ever. As a child, I wanted to be a pastor, and that desire has never left me. I have served in some capacity as a volunteer in ministry since 1987.

WHY MINISTRY?

As I stated above, I have had a desire for ministry (Preaching) since I was a young child. That however is only the beginning. Through the many volunteer roles, I have had through the years, my desire has only grown. I have seen however the wisdom of my heavenly Father teaching me things as I have worked in other vocations. My life changed in a drastic way in June of this year. A prophecy was given to me at the end of May that God would pull my life in a new direction. On June 15th, 5:15 am, I was hit head-on by a drunk driver. One look at what was left of my vehicle, and you would agree it is a miracle I am still alive, When I awoke from my coma to discover the state of my body, I knew God was indeed repurposing my life. A couple of days ago, I had lunch with a local pastor. When he heard my heart and my story, he told me to start placing applications and "Give it to God". Met church is getting my first application.
