ABOUT ME

I am a passionate and extremely hard working martial artist. I enjoy studying philosophy and psychology. I am a person who believes deeply in committing full effort in everything I do, regardless of my personal desires. My upbringing has molded me into a disciplined, and altruistic person that values benevolence. I am extremely resilient; when I was depressed 2 years ago, I sought to help others to ensure they wouldn't go through the same conflict I did, so I ran as an ASB Officer, and lost 3 times. I ended up running for 2 years before I would eventually win.
