

Cover letter:

Hello, my name is Noor, I'm Palestinian, I live in Qatar and was born and raised here. I am 24 years old and currently a senior at Qatar University, majoring in biological sciences. Ever since I was a child, I was passionate about acting and singing and tried to practice this passion and participate in events whenever I had the chance, and this passion grew stronger as I grew older and became my goal. Whenever I act or even sing, I feel like I'm in a different dimension as I put my heart into what I do, and the result is smooth realistic acting or beautiful emotional singing. One of the reasons I'm passionate about these aspects is that I believe it can unite people around the world, as movies and music are such powerful tools that can have a huge effect on people, and I intend to use this power for the greater benefit of people around the globe, and hopefully be able to help them in different ways through doing what I love.
