Sports

- Indoor/Outdoor Track and Field
- Competition cheerleading

A scholarship would help my family and me pay for college and living expenses. Which would reduce out-of-pocket, cause less financial stress, and help me focus more on my studies and the major I decide to take up. Also, I've always wanted to have that accomplishment in high school, getting a scholarship for the sport or activity I would love to do once I get to college. I want to achieve one for Track and Field mainly because it's a main desire that I've been set on for a very long time.
