PROFILE

My job in international textile production and sourcing specialist involves overseeing the production and sourcing of textile materials in Turkey. I work with suppliers, manufacturers, and other to ensure that materials are of high quality or target quality, delivered on time, and meet the specifications of the company or client.

I do identifying and evaluating potential suppliers, negotiating contracts and pricing, managing logistics and shipping, coordinating with production teams to ensure timely delivery, and conducting quality control checks, spec sheets on finished products. I can ensure that materials are of high quality, delivered on time, and meet the specifications of the company or client.

I always track the market prices and supply and demand trends, and develop strategies to optimize production and sourcing processes.

I have a strong understanding of the Turkish textile industry, including knowledge of suppliers, manufacturers, and sourcing practices. I have a good Fluency in English and Turkish, and strong communication and negotiation skills. I have a proficiency in relevant software and tools, such as Microsoft Excel and sourcing software.
