

# EVAN CANAVAN

I have had the privilege and experience of working on a major TV show set as well as a small Indie film set as a background actor. My goal is to continue to learn and gain as much experience as possible. I also have experience working in a demanding service-oriented environment. I can adapt to any situation, follow directives well and work well with others. As an athlete in high school and in college, I am well versed in working with others to achieve a common goal.
