

To: Whom This may Concern,

With 25 years in features, TV series, and commercials, I have engaged in a healthy combination of warehouse work and paperwork where I assisted in crafting film & TV Set Dressing construction budgets, and managed the construction processes from a creative point of view.

My most recent years were as a Leadman, Set Dresser, and On-Set Dresser in the Set Dressing Department. To ensure the story's creative vision was conveyed compellingly, I was right next to the camera – where I like to be - collaborating with the D.P. Director of Photography, Grip & Electric, Picture Cars, Special Effects, and Visual Effects Departments.

This required focus, attention to detail, and “people skills” with all Production personnel, Department Heads and Crew. It was mental, and physical, and required me to plan well in advance and enabled crucial timelines to be met – which always happened.

I know that TV shows and News Shoots are two different animals – but I’m looking for a new part of this Industry – the Information Industry -- because I’m a ‘News Junkie’ and follow FOX regularly. I’m also a Writer and a Voice Over Actor. (Imagine that!)

With my experience behind the Camera, I will serve FOX News in ways that exceed the opportunities for which I am submitting.

Thank you for your courtesy and consideration.

I look forward to hearing from you.

Best Regards,

James Dean
