

Cameron Vandevyvere

209 cedar wren lane. Holly Springs , NC 27540

OBJECTIVE

Obtain a position at a company where I can utilize my skills gained as a union Chicago carpenter to help facilitate more efficient build-outs.

Experience President, On Time Construction OTC,LLC Holly springs,

NC -2009-2024

Converted 120 Tire Merchant stores to NTB. Had to de brand and re brand all 120 stores all over Virginia / Maryland . From signage and vinyl wall paper in lobby.

Over 100 -NTB Store openings / Store Closings . Installed all shop / office / lobby signage. Set up shop tools, office supplies, and lobby for business. De branded store of all signage, shop inventory, and office paperwork. Re located inventory to other stores , loaded up 18 wheeler trucks of tire inventory to go back to warehouse. Fixed damaged walls and other scopes of work to give back to landlord.

Converted 60 Midas stores over Virginia / Maryland. Had to demo old tire racking to except new Tire racking . So they can sell more tires.

A 12 week remodel of Hobby Lobby in Ithaca NY. That I self performed as Super/ Carpenter. Had to work with the Landlord that kept holding the project up with new electric service and new sewer that it was hard to get done on time. Plus the City had it's own rules that only applied in Ithaca.

A 15 week remodel of GFS in Schaumburg IL. That I self performed and ran the carpenters, labor's and tapers. Also worked with the other trades and General Contractor to meet the deadlines. Even though there was unforeseen issues due to weather and picketing.

A 12 week remodel of Sears in Orland Park IL. That I self performed as a super,PM, Carpenter and ran the rest of the trades. The project got done on time and under budget.

A 4 week remodel of Carters Kids Clothing store in Allen Texas. That I self performed as a Super/ Carpenter and ran the rest of the trades. Do to my experience's got the job done a week early, and saved everyone money to Client to the flooring Contractor.

An out of the ground project for Ascend Credit Union Head Quarters in Tenn. I self performed as a Super/ Carpenter and worked with the PM and General Contractor with the Layout of every measurement for three floors of architectural panel's and all millwork, that we also installed.

Eight projects with Five Below, 3 in IL, 3 in IN, 1 in NC and 1 in NY. I was in charge of the install of the Fixture package and working with the General and PM to get the project done on time and achieve what the Client was looking for. I also self performed as a Carpenter with my crew. Three different projects for Kmart 2 -in IL and 1 - in IN. I was in charge of demoing the old cash wraps and layout of New cash wraps. I self performed as a Carpenter with my crew and got all of the jobs done on time and turned in early.

Superintendent/Forman, Custom Contracting Lake Zurich, IL-2006-2009

In Aug of 2008 at St. Alexis hospital in Hoffman Estates IL. We did a renovation to the Newborn NICU. I self performed as a Super/ Carpenter and worked with 8

different sub contractors, PM Facility Manager and doctors to bring this project to life. We saved the hospital money by having a helicopter drop new roof top units instead of using a crane. By doing this project the hospital was able to gain a level 3 rating.

IN Nov of 2008 at ITT in Chicago. We built a brand new 8,000 Square feet Clean Room that was used to make Protein's. I self performed as a Super/ Carpenter and worked with 5 different sub contractors, PM , and Facility Manager's to bring this project in on time. The project went so well that ITT was able to get funding to add on the newly built clean room.

Forman/Journeyman/Apprentice, Ward Construction

Hodgkins ,IL-1997-2006 Started as an Apprentice right out of school with them and worked there for

almost 10 years. Ward had a contract with the Archdiocese of Chicago and we did various Remodeling to New Construction projects at the Archdiocese Headquarters / Cardinal Mansion and every Catholic Church in Chicago. They also did projects at UIC, Elmhurst Hospital, and Case Manufacturing.

The project that I remembered the most was (**The Cardinal's Mansion**). The Cardinal needed to put a lap pool in the basement for his exercise. Very difficult when working in older building's with small doors. But we were able to get it in and get the job done with some south side engineering. Our motto (is one call doe's it all) and we lived by it!

Education

Chicago Regional Council of Carpenters - Elk Grove Village 1996-2000
