## Professional Summary

I Have had the pleasure of working on many projects in the live music space, Sound recording, theater, commercial, TV, film, and music video production. I've worked as an actor, producer, director, musician, songwriter, music producer, performer, booking agent, and coordinator while being involved in every aspect of the pre-production, production, and post production phases within those projects. I show up to work with a positive "can do" attitude to humbly learn while honing my craft.

## Skills, Strengths & Accomplishments

I am very creative, charismatic, hardworking, and easy to get along with. I also enjoy encouraging, and uplifting others while creating a positive and productive work environment. I have been very fortunate to have been able to create, and work with people I admire while being part of award winning productions, and having my films picked up for distribution. I have also had the good fortune of being an international recording artist, releasing music I have written, recorded, and collaborated on. I have media, PR, and promotional skills in radio, TV, and live red carpet events. I have had to think a lot on my feet during all production phases, pivoting, delegating and doing whatever it takes (at times on a tight budget) to successfully continue and complete a project. Whether that was losing or letting go of locations, actors or producers, I am always up for a challenge and hope to bring my creativity, talents, and experience to your projects.
