

DTEN ME Pro

27" Personal Meeting and Collaboration Device

DATASHEET

True All-in-One Convenience

Combining the technology in the DTEN ME with Zoom's enterprise-quality software delivers the ideal solution for the home office. Simply login with your Zoom user account and create an instant office experience without any additional licenses.

This solution integrates Zoom Meetings, phone calling, whiteboarding and annotation in a 27" multi-touch display built for the desktop. It is designed to keep your workspace clutter free and organized to deliver a professional meeting experience. At 27" it is ideally sized to fit neatly on your desk. It provides a display size made to see and hear meeting participants and view content clearly. It is sleek, streamlined, ultra thin and lightweight. The device can be used as a second monitor.

The multi-touch hyper responsive display keeps up with the speed of your ideas as multiple participants can write and annotate at the same time. The drawing tools take your hand drawings and auto-corrects your shapes for clarity as you write on the whiteboard. Use night mode

as needed and save your whiteboard slides to send to teammates after the meeting.

Bring Your Own Meeting

Start ad-hoc or scheduled meetings, make and receive phone calls and collaborate virtually with content sharing and annotation

Sync your calendar, status, meeting settings, and phone for an integrated video meeting experience

Manage your device remotely through the Zoom admin portal

27" multi-touch display

Three smart HD cameras built in for life-like video with ultra-wide 160 degree coverage

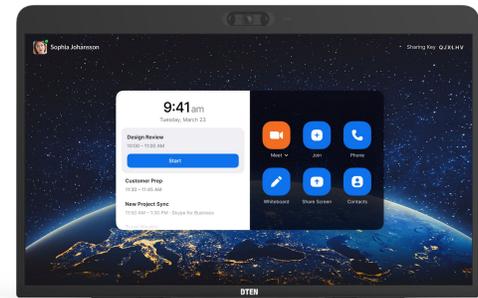

8 microphone array and proprietary DSP processing delivers crystal clear audio

The HDMI in port lets you connect your laptop or computer, making your DTEN ME your second monitor

Connect wirelessly or via ethernet for a more secure connection
