Key **Features**

- 6,000 ANSI Lumens ensure vibrant images in large venues
- High native contrast ratio provided by a 0.65" DMD chip and DLP technology
- 3rd generation laser phosphor technology with up to a 30,000-hour lifespan
- Installation flexibility: 1.7x zoom, V lens shift, H/V keystone correction, and 360° projection
- Centralized LAN control for efficient management

Product **Description**

Introducing the LS901HD from ViewSonic's Luminous Superior Series, tailored for expansive venue displays. Featuring a robust 6,000 ANSI Lumens brightness and high native contrast provided by a 0.65" DMD chip through DLP technology, it delivers stunning visuals on screens up to 300-inch. With a 1.7x optical zoom, it allows for a flexible setup to suit various installation needs, and the vertical lens shift and H/V keystone adjustment make the process a breeze. Additionally, portrait mode and 360° projection capabilities cater to more advanced requirements. Comprehensive LAN control ensures seamless integration into existing device management networks. The projector also features HDMI 2.0b, allowing you to enjoy original 4K quality content with HDR and HLG support. Employing advanced 3rd generation laser phosphor technology, the LS901HD boasts a remarkable 30,000-hour lifespan, reducing maintenance costs for both business and educational institutions.
