**VISION Techconnect Modular AV Faceplate Module - LIFETIME WARRANTY(TC3 USBB)**

USB B (on front) to A module - "a" type socket on the rear and square "b" type socket on the front - USB 3.0 backward compatible with 2.0 - fixes into Techconnect surrounds - plastic - white

The VISION TechConnect 3 USB-b module is a versatile and essential component for any modern setup, offering a single port solution that simplifies connectivity without sacrificing performance. With its USB Type-B interface, this module ensures broad compatibility with various devices, making it a reliable choice for connecting peripherals. Its design is tailored for easy integration into patch panels, outlets, and components, ensuring a seamless fit into any environment. The snap-in feature of the module further simplifies the installation process, allowing for quick and hassle-free setup. Whether you're upgrading an existing system or setting up a new one, the VISION TechConnect 3 USB-b module is designed to meet your connectivity needs with efficiency and reliability.

Key Selling Points

Single port design for a clutter-free connection

USB Type-B interface ensures compatibility with a wide range of devices

Female connector for easy and secure cable attachment

Designed for integration with patch panels, outlets, and components

Snap-in module for effortless installation and maintenance

Product Features

Efficient connectivity
The VISION TechConnect 3 USB-b module offers a seamless connection experience with its 4-pin USB Type-B connector, ensuring reliable connectivity for all your devices.

Simplified installation
Designed for ease of use, this modular facility plate snap-in is perfect for quick and straightforward installations, making it an ideal choice for both new setups and upgrades.
