PROFESSIONAL SUMMARY

AI data professional with 5+ years of experience in data annotation, quality assurance, and software testing. Strong analytical and written communication skills, with a track record of delivering high-quality structured feedback on AI-generated content. Detail-oriented, independent, and committed to consistent, honest evaluation work.

WORK EXPERIENCE

AI Data Annotator and Software Tester

Freelance / Contract Projects | 2021 - 2026

- Evaluated AI-generated responses across multiple domains, providing structured written feedback and rationales that improved
- Performed data labeling and annotation for NLP and computer vision datasets, achieving high inter-annotator agreement and str
- Identified nuanced errors, implicit meaning gaps, and reasoning flaws in model outputs; wrote clear, evidence-based assessmer
- Conducted functional and regression testing of web applications; reported bugs with detailed reproduction steps and impact ana
- Collaborated with remote teams to refine annotation guidelines and quality metrics, consistently meeting accuracy targets.

EDUCATION

Bachelor of Computer Science

University (Vietnam) | 2017 - 2021

- GPA 3.0/4.0
- Coursework: Data Structures, Algorithms, Databases, Software Engineering, Machine Learning Fundamentals

SKILLS

Data Annotation & QA: Prompt evaluation, response rating, structured feedback, guideline adherence, label accuracy

Technical: SQL, Python (basic), HTML/CSS, web testing tools, bug tracking, Excel/Google Sheets

Soft Skills: Critical reading, attention to detail, independent work, written communication, time management

Languages: English (professional working proficiency), Vietnamese (native)
